Nature: fractures

Final Narrative	Hospitalized	Amputation	Part Of Body	Source
Two employees in a scissor lift were wrecking forms, taking forms down, and removing the forms. They lost their grip on the form, which fell and hit an employee walking below on the shoulder, knocking him to the ground. He hit his head on the concrete, causing a wound to the head, a broken collarbone, and a broken rib.	1	0	multiple body parts	structural elements
